

MODUL

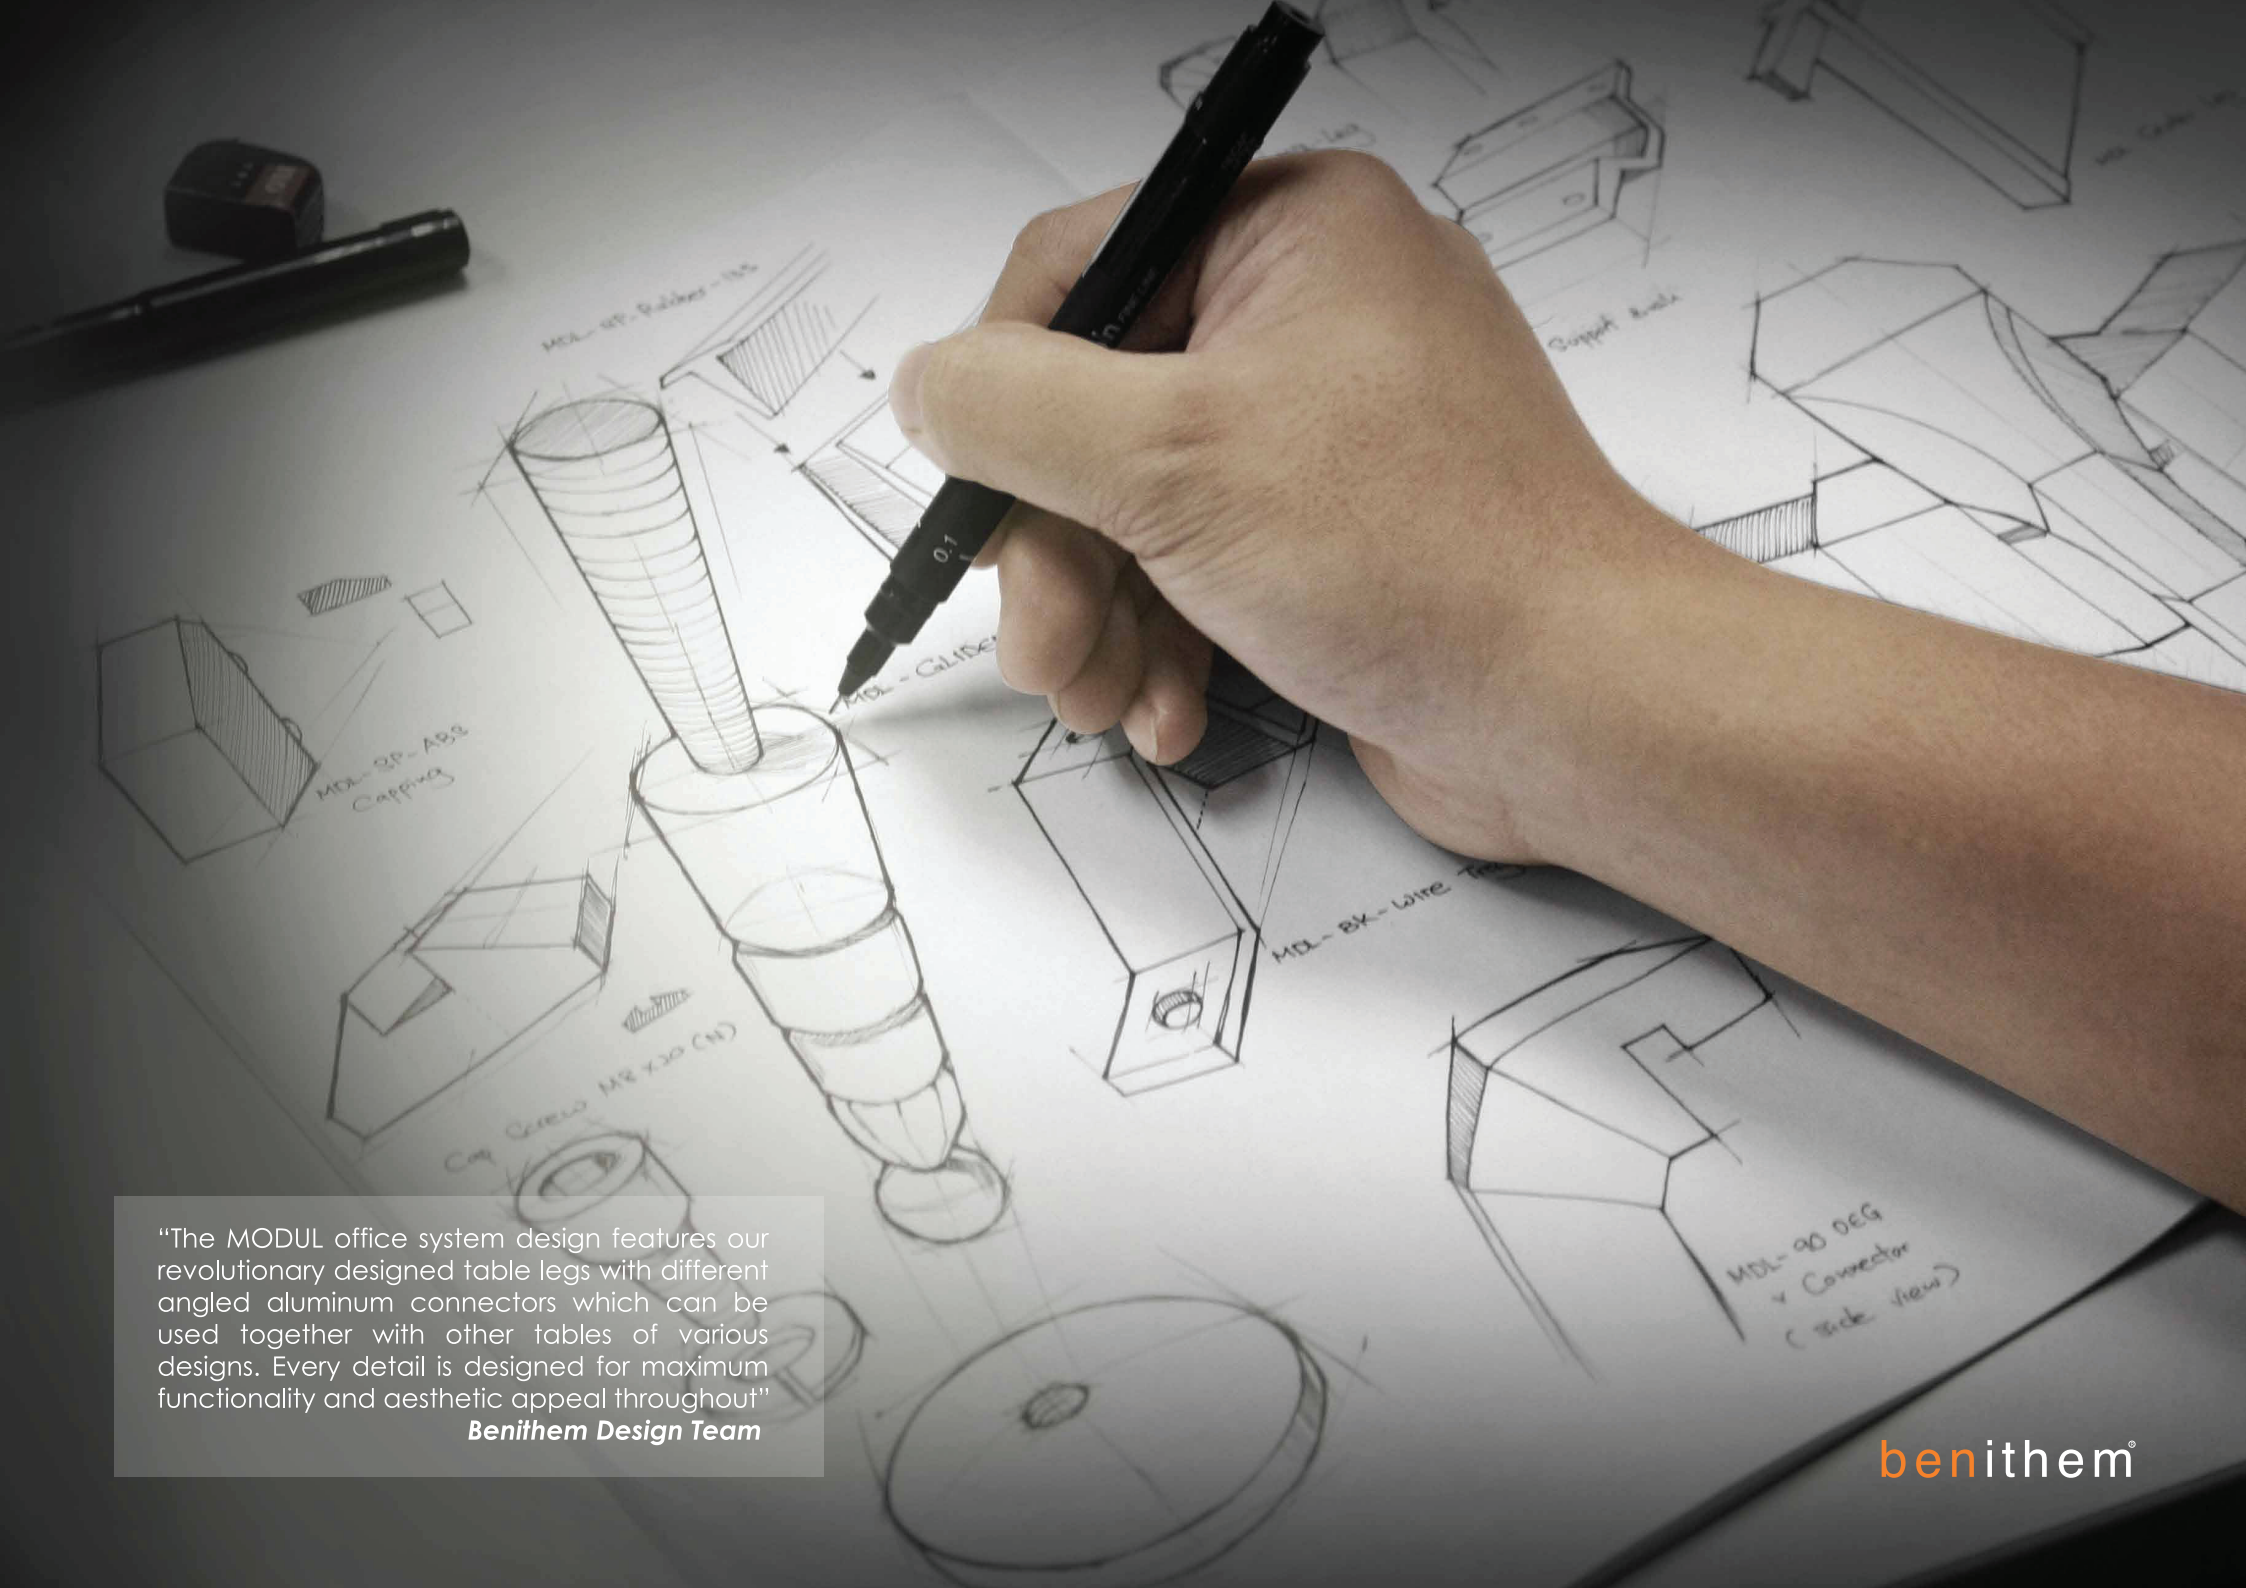

DESIGN | QUALITY | ENVIRONMENT

benithem®

DESIGN INSPIRATION
The design has been derived from the structural design of a building, a complex and solid structure, which we simplified to build the MODUL. Solid and slender aluminum legs matched with the exquisite finishing of dull chrome, is the most prominent feature of the MODUL.

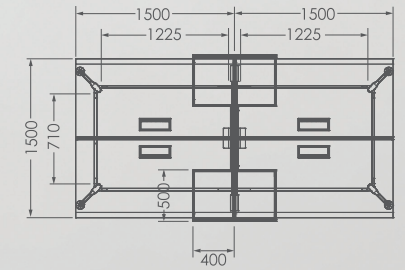

“The MODUL office system design features our revolutionary designed table legs with different angled aluminum connectors which can be used together with other tables of various designs. Every detail is designed for maximum functionality and aesthetic appeal throughout”

Benithem Design Team

MODUL WORKSTATION

Clean and simple aesthetics combined with a rich material vocabulary creates an appealing office landscape enlivened by the creative use of vibrant colors and varied textures. Design details such as the elegant Dull Chrome finishing Table Leg and Steel Beam, endow the furniture with a level of refinement that approaches that of high-end office furnishings.
